

# Digestive Synergy & Optimal Balance!

## What is Normalizer-3<sup>®</sup> Acid Balance<sup>†</sup>?

**Normalizer-3<sup>®</sup> is an innovative blend of vegetarian digestive enzymes and powerful probiotics.** Normalizer-3 takes a three-phase approach to healthy digestion, targeting the digestive process for nutrient breakdown and absorption as well as the important balance of microflora in the intestines. The result is comprehensive digestive support that works throughout the digestive tract and on beneficial intestinal bacteria to support acid-balanced digestion.<sup>†</sup>

## Probiotics & Digestive Enzyme Innovation -

- **Normalizer-3 contains 5 select probiotic strains** at 5 billion active probiotic cells\* to support the beneficial bacteria, or microflora, found naturally in the intestines.<sup>†</sup>
- These beneficial bacteria are vital for balanced and healthy digestion, but may become depleted due to chlorinated water, diet, stress, and certain medications.<sup>†</sup>
- Supporting a healthy balance of beneficial bacteria in the intestines promotes healthy digestion and helps alleviate gas, bloating, and occasional constipation.<sup>†</sup>
- **18 All-Vegetarian Digestive Enzymes – Dual Action Support**  
Normalizer-3 features 15 vegetarian enzymes that support breakdown of protein, carbohydrates, and fats in the stomach PLUS 3 enteric-coated vegetarian enzymes to support further nutrient breakdown in the small intestine.
