

SEDONA LABS®

SINCE 1987

Clear Sinus Support & Natural Nasal Comfort

with **iFlora® Nasal**

Promote Sinus Health and Comfort

The clinically-studied ingredients in **iFlora Nasal®** offer a dual-action solution promoting nasal comfort and overall health.†

iFlora Nasal includes one of the most potent sinus supports available—a powerful antioxidant known as N-Acetyl Cysteine (NAC). This amino acid is widely recognized for both immune system support and as a natural support for mucus-thinning. In fact, once mucus starts flowing naturally it helps flush out harmful irritants, reduce nasal congestion and relieve sinus pressure.

The combination of researched ingredients in **iFlora® Nasal** work in harmony to...

- Improve mucus flow and flush out unhealthy nasal irritants
- Reduce drainage and phlegm in the back of the throat
- Boost healthy flora in sinuses

Natural Sinus Health & Relief

Why choose iFlora® Nasal Sinus Support†?

iFlora® Nasal is clinically based and features **4 targeted probiotic strains** plus **N-Acetyl Cysteine (NAC)**, a powerful detoxifying antioxidant that works to break up mucus and help flush out irritants.† Now iFlora Nasal also contains **scFOS®** prebiotic fiber for optimum synbiotic support!

Probiotics and Nasal & Sinus Health

A breakthrough clinical study examined the effect of probiotic strains on nasal and sinus health, and found that the probiotics in iFlora Nasal supported an immune response in the nasal passages.†

These probiotics combined with the powerful NAC, can help support healthy nasal sinuses, both daily and seasonally.†

Try **iFlora® Nasal Sinus Support** today for natural and clear sinus support.
