

SEDONA LABS®

SINCE 1987

Fresh Breath & Naturally Clean Teeth

with **iFlora®** Oral Care

Naturally support overall gum and tooth health!

The patented probiotics in **iFlora® Oral Care** Probiotic Mints naturally support overall gum and tooth health by balancing out harmful bacteria that colonize below the gumline, on smooth surfaces of teeth and in chewing crevices.†

Coupled with xylitol's oral health benefits, iFlora Oral Care Probiotic Mints support a fresher, brighter, whiter and healthier smile with every **delicious sugar-free mint**.†

iFlora® Oral Care gives you:†

- A beautiful, confident smile
- Fresh, clean breath that lasts
- Whiteness that comes naturally – not from harsh scraping or chemicals

Create a Healthy Mouth!

Why choose iFlora® Oral Care?

iFlora® Oral Care contains an award winning combination of natural oral probiotics that work together to support oral health, promote fresh breath, and gently restore your smile from dull and yellow to bright and white.

The three **specialized probiotic strains** in iFlora Oral Care—*S. rattus JH145*, *S. oralis* and *S. uberis*—all work together to create microscopic levels of hydrogen peroxide which not only creates an unfriendly environment for unwanted bacteria in your mouth, but also help freshen your breath and keep your teeth noticeably whiter too!†

iFlora Oral Care contains **no harsh bleaching agents** and no artificial ingredients. Each spearmint-vanilla flavored mint is sweetened with xylitol, to promote healthier teeth.

Making **iFlora® Oral Care** part of your daily health routine is beneficial for both adults and children!
