Targeted Feminine Health

with **iFlora**[®] Women Multi-Probiotic[®]

The Advanced Probiotic Solution for a Woman

iFlora[®] Women Multi-Probiotic[®] is an advanced probiotic solution that helps to re-establish a healthy colony of microflora for complete feminine support.†

The specially selected probiotics in iFlora Women work with a woman's body to promote urinary and vaginal health.† By introducing the beneficial bacteria, you help to restore your body to balance, and maintain balance once you achieve it. These beneficial bacterial also support intestinal health and promote a healthy colon.†

iFlora[®] Women Multi-Probiotic[®] helps to:

- Promote a healthy flora balance for vaginal and urinary tract health
- Support healthy bowel function
- Support normal levels of yeast in the body
- Nourish microflora balance with a non-gas forming prebiotic fiber

Natural Feminine Balance!

Why choose iFlora® Women Multi-Probiotic®?

iFlora® Women is formulated to address the specific needs of women with a specialized blend of **6 female-friendly powerful probiotics** at 30 billion active CFUs (colony-forming units) per daily dose.*

Beneficial Probiotics for Women

Women have a uniquely balanced blend of microflora in their vaginal, urinary, and digestive tracts. And it's easy to lose that balance. Changes in vaginal PH, diet, stress and hormonal changes can all throw it out of whack.

iFlora Women also includes **non-gas forming scFOS® prebiotic fiber** to nourish these beneficial probiotics for an optimum daily microflora balance.†

Try **iFlora® Women Multi-Probiotic®** today for natural balance and targeted support for a woman's specific needs.
